Summer Colour for extra sales

From our own experience in our garden centre, we are finding an increase in sales of herbaceous perennial plants in 1, 2 and 3 litre pots to flower throughout the summer period.

A catalogue has been provided alongside this plug catalogue to show you most of the varieties which will be available as 28 cell plugs. Plugs will be available from week 2 to 4 2023 in a 28 cell tray which are 6cm diameter cells ready for potting straight into a 1, 2 or 3 litre pot depending on the variety. We suggest these are potted directly into the pot with compost with added 6 month control release fertiliser.

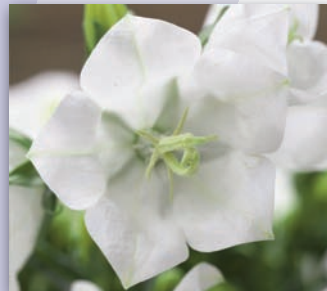

The perennial plug price list can be found at the back of your perennial catalogue or contact your Sales Representative or Head Office for a full list of available varieties. Alternatively, visit our website www.pentlandplants.co.uk and view the "Current Availability" to see which varieties we have on surplus at the moment and coming through in future weeks.

Coloured labels can be supplied at an additional cost for all the varieties available in 28 cell trays.

Please ask your Area Technical Representative or our Head Office for details.

Which Pansy variety to choose?

For autumn and winter flowering the multi flowered varieties such as Panola XP and the larger flowered varieties are reliable and popular. These are best transplanted from plugs throughout the summer to give a succession of plants showing colour for sales in September, October and November. The large flowered varieties can also be transplanted in late autumn and over-wintered cold for early spring sales in flower. Pansy Pentland Large Flower is also available in weeks 2-8 as 230 trays ONLY. For autumn and spring flowering hanging baskets we recommend Cool Wave.

LITTLE AND OFTEN!

25 PLUG COUNTS ONLY AVAILABLE FROM PENTLAND PLANTS

Cutting raised section items shown with a 25 tray option only

At Pentland Plants, we understand that not everyone wants a lot of one single colour in one drop, especially if you are a grower/retailer who needs to offer a little bit of something for everyone who walks into your garden centre.

We pride ourselves on being able to offer you our 25 trays which allow you to mix and match the varieties supplied in this tray size in our cutting raised section. All the plugs will be 3cm in diameter.

Until 2019, we had supplied the four "trays" of 25 plants in one singular tray of 104. In 2019, we offered the 25s in singular strips which lift out of a plug base tray and had great feedback from you. We are pleased to continue to use this tray format for the coming season.

New to 25s?

If you have ordered 25 trays from us before, you will know what to expect and we hope you love the tray format as much as we do. If you haven't ordered the trays of 25 before, here are a few benefits of choosing the 25 tray.

Mix and Match

You can mix and match between all the varieties offered in 25s. You can have four trays of one species but in four different colours ie four different Calibrachoa or you can have a mixture of species ie one Calibrachoa, one Fuchsia, one Petunia, one Verbena. There are so many combinations available!

Flexibility

These trays will allow you the flexibility of having a succession of various species and colours running through your production throughout the season should you take them over more than one delivery.

Try new things!

The 25 trays gives you the opportunity to try new products. If you are unsure if that weird and wonderful new colour will suit your needs or if a new and improved series is comparable or better than the one you have always had, just try 25!

Where products are available in 25 tray counts, these will be listed in the catalogue with optional delivery weeks, price per tray (strip) and price per plug.

No maximum numbers

There is no limit to how many you can order! However, we would ask that the total number of trays on each of your deliveries should be divisible by four. Filling a full base tray helps to keep the tray level in the box during shipping so the plants arrive safely with you.

Easier to handle

Our new tray makes things easier for you to handle when you receive your delivery. This allows you to take your trays and divide them up however you wish.

By growing a selection of annuals, biennials and perennials which are nectar and/or pollen-rich we can contribute to helping bees, butterflies and other pollinators fulfill their food needs. Below are varieties which have been found to be particularly pollinator-friendly and are worth growing to brighten up the garden, window box or container as well as the benefit of helping pollinators at the same time

7.1 Risk or damage to or loss of the Goods shall pass to the Purchaser:

7.1.1 in the case of Goods to be delivered at the Seller's premises, when the Seller notifies the Purchaser that the Goods are available for collection; or

7.1.2 in the case of Goods to be delivered otherwise than at the Seller's premises, at the time of delivery or, if the Purchaser wrongfully fails to take delivery, when the Seller has tendered delivery of the Goods.

7.2 Notwithstanding delivery and the passing of risk in the Goods, or any provision of these Conditions, the property in the Goods shall not pass to the Purchaser until the Seller has received in cash or cleared funds payment in full of the price of the Goods and all other Goods agreed to be sold by the Seller to the Purchaser for which payment is then due.

8. WARRANTIES AND LIABILITY

If delivery is not refused and the Purchaser does not notify the seller accordingly, the Purchaser shall not be entitled to reject the Goods and the Seller shall have no liability for such defect or failure, and the Purchaser shall be bound to pay the price as if the Goods had been delivered in accordance with the Contract.

8.3 Where any valid claim in respect of any of the Goods which is based on any defect in the quality and condition of the Goods or their failure to meet specification is notified to the Seller in accordance with these Conditions, the Seller shall be entitled to replace the Goods (or the part in question) free of charge or, at the Seller's sole discretion refund to the Purchaser the price of the Goods (or a proportionate part of the price), but the Seller shall have no further liability to the Purchaser.

8.4 The seller shall not be liable to the Purchaser for any consequential loss or damage (whether for loss of profit or otherwise), cost, expenses or other claims for consequential compensation whatsoever (and whether caused by the negligence of the Seller, its employees or agents or otherwise) which arise out of or in connection with the supply of the Goods or their use or resale by the Purchaser.

8.5 The Seller shall not be liable to the Purchaser nor be deemed to be in breach of the Contract by reason of any delay in performing or any failure to perform, any of the Seller's obligations in relation to the Goods, if the delay or failure was due to any cause beyond the Seller's reasonable control.

10. PLANT BREEDERS RIGHTS

10.1 The Purchaser will not use the Goods other than for flower production without the prior written consent of the owner of the plant variety concerned and in particular the Purchaser shall not use the Goods for the propagation of legally protected varieties unless the Purchaser holds a licence from the owner of the plant variety concerned.

10.2 No plant material comprised in the Goods will be sold on by the Purchaser except under the relevant variety name or trade name.

10.3 If the Purchaser finds a mutant in the plant variety forming part of the Goods the Purchaser will inform the Seller forthwith in writing and make its offspring available for viewing and/or testing purposes to the Seller or to the owner of the breeder's rights free of charge.
